2. EXECUTIVE SUMMARY

Azentra Global is an IT services, consulting, and training company based in Nagercoil, Tamil Nadu, India. Azentra Global provides end-to-end digital transformation solutions combined with industry-focused training programs. Azentra Global serves students, startups, and enterprises through services such as AI automation, software development, web and mobile app development, cloud infrastructure, and digital marketing.

Azentra Global differentiates itself by combining IT services with career-oriented training, enabling both business growth and workforce development. Azentra Global emphasizes practical implementation, hands-on learning, and real-world project exposure. Azentra Global also maintains a strong social mission with a focus on rural employment and women empowerment, with 80% of the workforce being women.

Azentra Global operates on a hybrid business model including service-based revenue, subscription-based hosting services, training programs, and consulting services. Azentra Global positions itself as an affordable, scalable, and accessible digital partner for both individuals and organizations seeking technology solutions and career advancement.
